CATÁLOGO GERAL

GRANDE COMO AS MINHAS IDEIAS

São
mais de:

RESPEITO AO MEIO AMBIENTE

Nos preocupamos com o meio ambiente e, entre nossos princípios básicos, está o gerenciamento ambiental.

COMPROMISSO TOTAL COM A QUALIDADE

Fundada em 1988, a Alumicone conta com amplo portfólio de componentes e persianas para esquadrias, além de perfis para a construção civil, setor moveleiro e industrial, dispondo de processo próprio de anodização e pintura eletrostática para acabamento dos produtos.

Destaca-se pela qualidade dos produtos e serviços prestados, resultado da dedicação em todas as etapas do processo produtivo e pela assistência técnica especializada que oferece aos clientes, elaborando soluções que se adaptam perfeitamente aos projetos.

35 anos
de experiência no setor

4.500
itens

24.000m²
de área fabril

A empresa propõe-se, como um dos principais requisitos, o atendimento às diretrizes e os compromissos ambientais gerados nas esferas municipal, estadual e federal. Neste aspecto, implantou em 1999 uma estação de tratamento de efluentes líquidos industriais com área construída de 600m², além de:

1. Priorizar a redução na geração de resíduos.
2. Implantar técnicas de tratamento e disposição com baixo consumo de energia e espaço físico.
3. Sempre que possível optar pelo reúso e/ou pela reciclagem.
4. Operar o processo produtivo maximizando as tecnologias limpas.
5. Gerenciar os resíduos, preservando assim, a qualidade ambiental e socioeconômica da comunidade na qual estamos inseridos.

São premissas básicas da Alumicone: atuar na melhoria contínua de nossos produtos e processos, seguindo normas nacionais e internacionais (ABNT - Associação Brasileira de Normas Técnicas, ISO 9001:2015 e ISO 14001:2015) sempre que aplicáveis, visando o atendimento das necessidades e expectativas dos nossos clientes e partes interessadas, além de estimular, motivar e capacitar os colaboradores a participarem e se comprometerem com os Programas de Qualidade em todos os níveis do processo, garantindo assim, produtos com alto padrão de qualidade e a satisfação dos clientes.

ALUMICONTE

Saiba mais sobre **EXTRUSÃO DE ALUMÍNIO**

A extrusão é um processo de produção de componentes mecânicos de forma semicontínua, no qual o alumínio é forçado através de uma matriz, adquirindo assim a forma predeterminada de acordo com a necessidade. Perfis de alumínio são utilizados nos ramos de construção civil, indústria naval, aeroespacial, automobilística e moveleira.

Na **Alumiconte**, contamos com 3 grandes extrusoras de alumínio, com capacidade produtiva mensal de mais de 500.000kg, voltados a atender a construção civil, setor moveleiro e industrial.

CONSTRUÇÃO CIVIL

Perfis voltados para a produção de esquadrias, oferecemos ampla gama de produtos, atendendo de forma eficiente às necessidades do serralheiro, entregando alto padrão estético, de qualidade e funcionalidade.

INDÚSTRIA MOVELEIRA

Em nosso portfólio de itens voltados para indústria moveleira, você encontra mais de 600 produtos em linha, que atendem a inúmeras formas e aplicações.

PERFIS PERSONALIZADOS

Dispomos de setor de engenharia focado na busca pela solução ideal para cada projeto, produzindo perfis personalizados, de acordo com o design e necessidade do cliente.

ACABAMENTOS & CORES

LANÇAMENTO!

ESCOVADO

Grande tendência do design de interiores, o alumínio anodizado e escovado da Alumiconte veio para agregar ainda mais requinte e diferenciação aos seus ambientes.

Antes de ser anodizado, o perfil é submetido ao processo de escovação, que confere ao produto uma superfície com textura elegante e sofisticada.

CORES

Bronze 1003	Inox
Bronze 1002	Preto
Bronze 1001	Fosco

JATEAMENTO

A Alumiconte conta com um grande diferencial no mercado quando o assunto é alumínio jateado, pois o nosso processo é mecânico, ou seja, acontece a partir do contato entre microesferas e o perfil, resultando em uma superfície de aspecto aveludado e sem quaisquer marcas.

A BASE PERFEITA PARA POSTERIOR ANODIZAÇÃO. Juntos, transformam o alumínio em um elemento essencial para o design do projeto.

ANODIZAÇÃO

A anodização é um processo eletrolítico que promove o preenchimento dos poros do alumínio e a formação de uma camada, de forma controlada e uniforme, de óxido em sua superfície. Por isso, podemos considerar a anodização uma fusão entre cor e material, resultando em um acabamento extremamente durável.

Este é um dos processos mais utilizados em perfis para o setor moveleiro, que ganha ainda mais beleza quando combinado à escovação ou jateamento.

Bronze 1003 Bronze 1002 Bronze 1001 Preto Fosco

PINTURA ELETROSTÁTICA

Perfeição de cobertura e acabamento são diferenciais da pintura eletrostática, além da resistência à abrasão e corrosão, bem como sua durabilidade perante exposição à intempéries (raios solares, calor, frio e umidade).

Este processo confere ao produto uma superfície lisa e de fácil higienização, combinados à alta durabilidade e aspecto impecável.

LANÇAMENTO!

ALUMICONTE MADLOR

A leveza dos amadeirados com processo de sublimação interno

A **Alumiconte Madlor** é uma nova linha de acabamentos amadeirados, com um processo de sublimação completo realizado internamente na Alumiconte.

- Único sistema no mundo a oferecer 10 anos de garantia na combinação de base + filme, além de contar com certificações Qualicoat e Qualideco.

- Conta com Test in Flórida, que garante a eficiência do acabamento.

- Tinta à base de PU, a mais eficiente do mercado para processo de sublimação.

- Acabamento perfeito, abrangendo todas as regiões da geometria do perfil.

- Variedade de acabamentos para todos os Perfis de Construção Civil e Moveleiro da Alumiconte.

Uma nova proposta que irá trazer mais beleza e sofisticação aos seus projetos.

Uma grande variedade de acabamentos estão sendo desenvolvidos, dentre eles, 6 já estão disponíveis em nosso catálogo:

Madlor Castanha Café

Madlor Castanha Sépia

Madlor Cerejeira Marrom

Madlor Carvalho Marrom

Madlor Pinus Dourado

Madlor Pinus Marrom

Obs.: devido à impressão, podem ocorrer variações de tonalidade entre as amostras de cores do catálogo e produto físico.

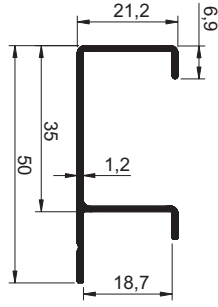

PERFIL PUXADOR DE ENCAIXE

Com função de puxador, são voltados para aplicação em portas, gavetas e demais peças que contam com o movimento de abrir/fechar.

LANÇAMENTO!

ALUMICONTE **Ísis**

A Alumiconte Ísis é composta por perfis e componentes que formam estruturas robustas para portas pivotantes.

FECHAMENTO

Desenvolvida para receber fechamento em:

VIDRO

ACM

Recomendação:
vidro temperado
4mm.

FORMAS DE AQUISIÇÃO:

- Em Kit: composto por perfis e componentes na quantidade certa para a fabricação de 1 porta de até 2,0x3,0m.
- Perfis em barras de 6m e componentes separadamente.

ACABAMENTOS & CORES

Jateado e Anodizado

Fosco | Bronze 1001 | Bronze 1002

Pintura Eletrostática

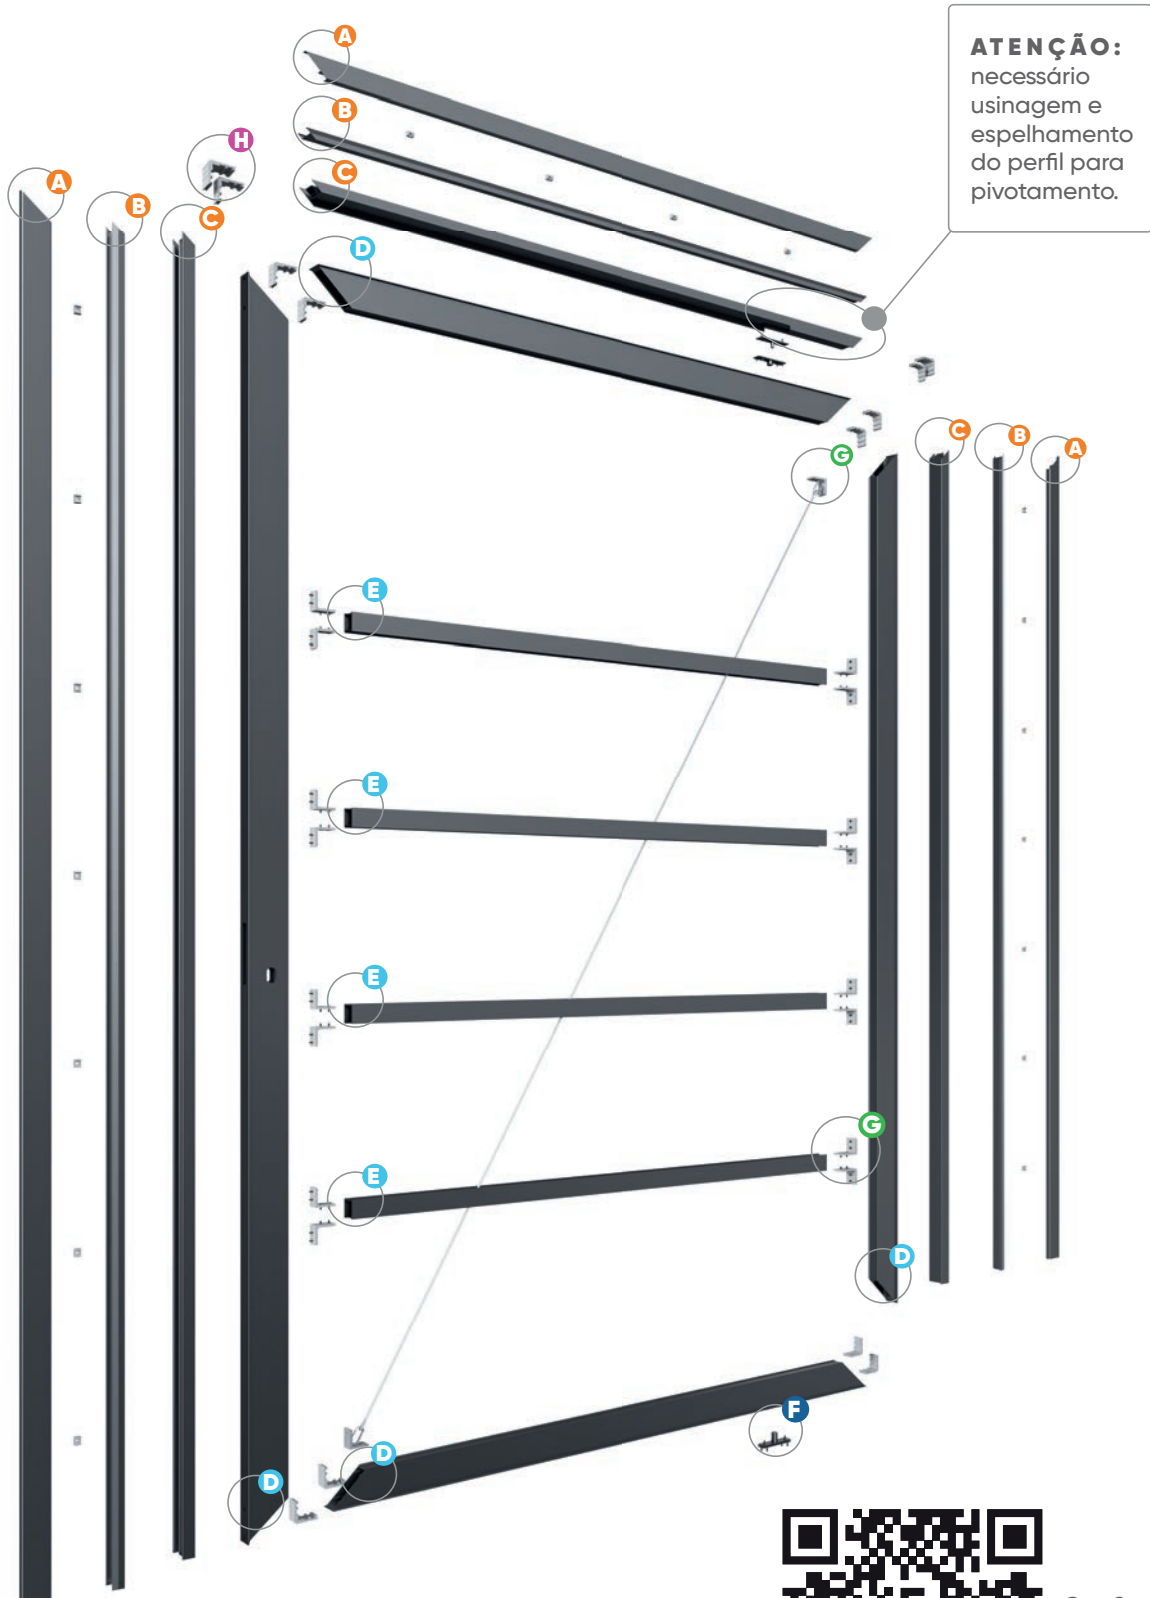

Branco | Preto Órion

Na montagem da sua porta pivotante

ALUMICONTE ÍSIS

você vai utilizar:

Cores disponíveis

Pintura Eletrostática

- Branco
- Preto ório

Anodizado

- Fosco
- Bronze 1001
- Bronze 1002

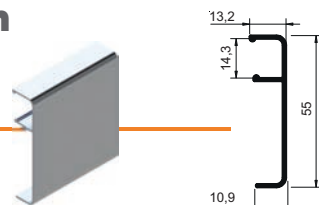

Confira a demonstração de montagem de uma Alumaticonte Ísis em nosso canal do Youtube.

Ísis 42 - Para portas de até 2x3m

Com os perfis e componentes abaixo, você poderá montar uma porta pivotante de até 2x3m.

NORMAS ABNT

A Associação Brasileira de Normas Técnicas (ABNT) é o órgão responsável pela normatização técnica no Brasil, fornecendo insumos ao desenvolvimento tecnológico brasileiro. Trata-se de uma entidade privada, sem fins lucrativos e de utilidade pública, fundada em 1940.

Todos os produtos desenvolvidos e produzidos pela Alumicone contidos neste catálogo seguem rigorosamente, entre outras, as seguintes normas ABNT:

- **NBR 8116:** Alumínio e suas Ligas | Produtos Extrudados | Tolerâncias Dimensionais.
- **NBR 12609:** Alumínio e suas Ligas | Anodização para Fins Arquitetônicos | Requisitos.
- **NBR 14125:** Alumínio e suas Ligas | Tratamento de Superfícies | Revestimento Orgânico para Fins Arquitetônicos | Requisitos.

Grande como as minhas ideias.
